Perfect For Discovering Yourself

By Poe

I love this book!! I took it everywhere I went. I only let my very close friends read it. The questions are great! I have read atleast five other books like this but this one is the best. The only thing I did not like was there was not a lot of favorites. I'm a teenager and this book didn't make me feel like I was immature or too mature for my age.

#### **MORE OF A WORKBOOK THAN A JOURNAL**

By CarolinaT

I'll be returning this and getting a 2nd copy of Through My Eyes: A Journal for Teens by Linda Kranz. If your looking for a fill-in-the-blank & multiple choice workbook, rather than a thought provoking actual journal, then this is it. The images I provided reflect all but one front & back page of the entire book; and that one page is titled "Randomly list everything that comes to mind." The prompts are mostly good ("a piece of advice about friendship that you will always remember" / "considering all your friendships, you have learned this" / "the worst opinion adults have about young people" / ...), but your writer isn't given enough space to answer on [see the customer images]. My 12yr old niece would be disappointed if I gave her this. The creativity to add pictures, magazine cutouts, personal doodles, etc. is limited by the workbook structure of the pages. I wasn't expecting a scrapbook, but some more writing space to answer what is asked would have been nice; some blank pages in between all the "work" to let out on would have also been appropriate seeing as how this is suppose to be for a teen.

#### **A Great Purchase**

By Kitteh

I bought this book for my friend's 15 year old daughter and wasn't sure how she would enjoy it. She hasn't put it down since and writes in it all the time. The two things she liked most about this journal? The questions aren't immature or kiddish but very original and are things she sometimes hasn't even though about but likes to. The fact that it is already started for you allows her to write about topics that directly affect her without having to use a daily blank filled journal. I would recommend this book to any teen.
