Great Book!

By gail savick

This book wasn't required for my photography classes, but recommended. What a big help this book is on understanding art/photo images and writing critiques for my photography classes! Highly Recommended!

Every serious photographer must read.

By naturephotophyll

I have read lot of books on photography techniques, but never a book on thoughts and interpretation of images. This book has made me think beyond the composition and technical aspect of creating an image.
