Splendid Fifth in the Series

By Daniel Ybabo

I recommend D.S. Butler's procedural series and the author's latest work featuring DS Jack Mackinnon and a returning cast in Deadly Ritual. Any of the novels can be enjoyed separately out of order, but you should review the previous books as they are all first rate. If Butler writes it, I'll read it.

The first four novels leaned heavily on Butler's technical background as a clinical chemist. This newest work is not as science oriented but is still somewhat arcane. It combines an African immigrant spiritual element, ritualized murders and very serious child endangerment challenges.

As usual, Butler does not mess about. The prose is fast-paced and nicely edited . . . nothing much to quibble about in the presentation. I would highly recommend Butler's series and this volume for fans of UK police procedurals that are looking for entertainment with somewhat less salty language and over-the-top sex and violence. Again, if Butler writes it, I'll read it. You too are likely to become a fan . . . five stars.

Not Up to Expectations

By Dianne

For some reason, this mystery didn't come alive for me. I have read the other books in the series and appreciated each as a good read, cleverly plotted with interesting main characters. Even the characters that I previously liked - Chloe and Jack particularly - fell flat this time out. There was no tension in solving the mystery which surrounded, perhaps, Voodoo, perhaps some combination of that and another cult. I didn't buy that nor did the justification for the murders seem plausible. The new character, Alfie, who was central to the mystery, wasn't more than a stereotypical preteen. I didn't even cotton onto the fact that he was black

(hence the likelihood of Voodoo?) until well into the story. So, while this was a disappointment, I will give the next in the series - if there is one - a try since the major fault was with this particular plot.

The British Queen of police procedurals!

By Doc

In numerous reviews, I have said that the Brits write the best police procedurals. Tim Ellis and Bill Rogers are in the running for King, but no female I have read edges out Butler. The Brits are so good that there are three or four Americans writing British style police procedurals, the most noted being Preston Child (see Ice Station Wolfenstein). This author name is a combo of Douglas Preston and Lincoln Child, American coauthors of the famous Pendergast series.

Butler's books are all spot on when it comes to having a plot and characters that are believable and well defined and developed. The killers are brutal and difficult to catch, but catcher they get. This is her fifth book and I recommend you read them all. Enjoy!
