Who do you call when things are coming out of your dreams and trying to kill you? Or when your daughter is cursing in Latin and walking like a spider? Or when your dog keeps screaming at you to strangle your neighbors? Doctor Strange, of course. He's the only person standing between us and the forces of darkness, but has he been paying his tab? Every act of magic has a cost and Jason Aaron (THOR, ORIGINAL SIN) and Chris Bachalo (UNCANNY X-MEN) are going to put Stephen Strange through hell to even the scales.

Embrace The Weird

By Cool Girl

This is the first Doctor Strange book that I've ever read. I had heard a lot of good things about the good doctor and his current series, and recently I went and saw his movie and was impressed with what I had seen. So I decided to give this book a try. And I was not disappointed in the slightest. The story was pretty straightforward. Doctor Strange at first was dealing with other people's odd mystical problems (a typical day for him). When suddenly he started encountering various creatures and situations that were weird even for him, and he didn't understand why. It was a very intriguing story, and as it played out, I was left wondering "What is Doctor Strange going to do now?". In other words, it left me wanting more. The art was very vivid, and it depicted Doctor Strange, his spells, and the mystical creatures and places he encountered very well. Overall, I would recommend this book to both new (like me) and old Strange fans.

Dr. Strange done well

By Dan C

Dr. Strange is one of Marvel 's most famous and most interesting characters. But he has rarely been well-written. Most writers throw him in as a powerful yet "mysterious" good guy but leave the character completely uninteresting or shoehorn him into lackluster storylines. But Jason Aaron does a great job of bringing a fresh and interesting take on the character while spinning a fun story that actually seems to mean something.

A Great Introduction To The Character

By Jaime

I'd never read a Doctor Strange comic before. Shortly after the film I was asking around about the comics. I'd heard that there'd been some great comics and some not-so-great, which isn't that unique I guess. This volume was recommend to me as one of the more entertaining, classic style adventures. I had a blast reading this one. It's full of the kind of weirdness the film didn't want to get into with some beautifully drawn action panels. The humor is pretty good and the characterization felt natural. Most of the time I was reading it I was wishing Robert Downey Jr. had played Doctor Strange instead of Tony Stark. Strange is much snarkier and wittier than Stark feels in the comics. No matter, this is still a fun read that doesn't require a lot of knowledge to understand.
