Good comprehensive book for preschool teachers

By A dad

Good comprehensive book that doesn't assume any prior knowledge on the part of the reader. I believe it's tailored more to those that don't have a 4-year degree.

Takes 300+ pages to say the same thing over and over

By Crystal

It's good for someone who knows absolutely nothing about teaching and is considering if this is the right path for them, but as far as helping an already educated teacher move into teaching younger kids, it is useless.
