Packed with yummy recipes and helpful tips

By Melankalia

Not just a cookbook, this is also a brief history of the partnership and restaurants. The book itself is quite visually appealing, with a clean modern layout and lovely appetizing photos. Packed full of yummy recipes, there are also helpful tips on things such as how to best cook the chickpeas and which tahini is most flavorful.

Featuring a well balanced assortment of recipes—from drinks and sides to main dishes—and many options to create a fantastic meal for yourself or a crowd. There is truly something for everyone here, regardless if you are vegan, vegetarian, or meat lover. Even those with allergies or dietary restrictions are taken into consideration, as there is a checklist in the back of the book denoting which recipes are gluten, lactose, and/or nut-free.

Hummus lovers must read (and cook)

By roxiNet

This is no doubt, a book for chickpea/hummus lovers! Such a wonderfully illustrated and simple cookbook with a complete focus on the chickpea.

I hadn't heard of the Hummus Bros. until I received this book and I wish I could eat at their restaurant! They truly love hummus and it's completely evident throughout this cookbook, down to the photo instruction of "How to achieve the perfect hummus bro. swirl". The recipes are delicious and combine dishes with hummus that I'd never thought of (hummus + chicken tikka) but also non-hummus dishes (guacamole, gluten-free chocolate brownies), drinks and salads. A complete meal can be made from recipes in this very user-friendly cookbook.

This book also makes a great gift for chickpea lovers/hummus lovers/food lovers in general!

Wonderfully Good

By YodaMom

Who loves hummus ? My family does, my neighbors now do and even my anti anything but meat and potatoes friend likes it. I made a few recipes out of this to extend my flavor reach and wowed taste buds. Where has this book been all my life ? I have been making hummus for years, the same three varieties were getting stale. Yes, I tried some recipes off the internet with very meh results. Not a meh recipe so far out of this baby !

The authors share their winning recipes and even add details on the benefits of eating these misunderstood health bombs. There is of course hummus, but there are so many more Lebanese recipes to try. It's not all about the dip. A very healthy, tasty and unique addition to my cookbook shelf.
