Follow the conflict of World War I from 1914-1918 through a unique collection of historical maps, expert commentary, and photographs. More than 150 maps, some previously unpublished, are used here to demonstrate how World War I was fought around the world. Small scale maps show country boundaries and occupied territories, large-scale maps cover the key battles and offensives on all fronts of the war, and trench maps show detailed positions of the front line. Maps from newspapers are also included, as well as battle planning maps and propaganda. Key offensives covered include the Battles of the Marne and Ypres; Tannenberg and the Eastern Front; Verdun and the Somme; the Gallipoli Campaign; Battle of Jutland; the Advances to Jerusalem, Damascus, and Baghdad; Vimy Ridge and Passchendaele; and German 1918 offensives and Allied counter-offensives. Along with the maps, key historical events are described, giving an illustrated history of the war from an expert historian.

Another very good Great War book!

By Michigan Reviewer

Another good book about the War to end all Wars. Probably a niche market for this book, especially for cartographers or geographers. I especially liked the section on airplanes and zeppelins. Also thought the submarine section was pretty decent. Overview of Russian Revolution and its impact on the war was very good. Some good photos. For those who may be planning a trip to locate and explore the sites of many of these famous battles. Or those who just want to put the battles into a geographical perspective. I gleaned more info than I possessed before reading the book, which for me is always a good indicator. Descriptions accompanying maps help put everything into perspective.

Useless Maps

By Pangle

I chose this book because of the maps which turned out to be useless. They are not readable and amount to no more than a selling point for online shoppers who don't have the luxury of physically inspecting the book. Otherwise the book is pretty good and I would have rated it higher had I not bought it primarily for the maps.
