Professor Rebecca Stanley-Wilson is having a very bad season. Her husband has just admitted to having an affair. And it was with one of her students. Blame it on a desire for revenge (or way too much alcohol), she then has had one of her own. Unfortunately for her, her affair was with one of the great upcoming painters of his generation. The ramifications of that one torrid evening will not only be felt across her life but over the entire art world. Sexy, funny, and very surprising, Permanent Spring Showers is the tale of one very memorable springtime and how it impacts a group of unique artists and dreamers. From the writer who is creating a new literary movement (through outright manipulation) to the hopeful Olympian with the failing marriage to the romantic wondering what he did wrong to drive his love from him, each tale walks the line between reality and fantasy. And waiting at the end of the line is a very important painting... and possibly the revolver used in the Lincoln Assassination.

I stand and slow clap. Wow, no words. An enthralling, fantastic read!

Marvelously wrought, Mr. Southard! What an awesome story, woven meticulously perfect until it all comes together where the reader and the actors of this story have their day of reckoning. It was one of those stories I could see read by an English Literature class and discussed for the many things it tells us about people, their motives, their fantasies, their obsessions, their human spirit. Mr. Southard, once again you have taken my breath away. I couldn't believe you could write anything as good and soul enriching as A Jane Austen Daydream. I was wrong.

This is a story with soap opera characteristics. This multi-layered, well-written, and extremely engaging novel with its unique plot and story setting, felt like a classic. The author dives into the minds of writers, teachers, architects and a wildly talented artist, some with quite twisted tendencies leaving me spellbound with its message.

Each character has his/her own story, and each impacts the other in some fashion. Mr. Southard creates memorable characters struggling with ordinary challenges -- a professor trying to save her marriage, an architect wanting to be noticed, a builder who's bored with just building the usual, a writer working to create a new genre, a new way of storytelling, a wealthy man who marries to keep his secrets, a security guard

without much of a presence and an artist with ideas encompassing greatness. Yet, this story is anything but ordinary.

There were moments of chuckling, moments of tears, moments of incredulity. The story gives us hope, the human spirit has no bounds, where the ending could very well be a new beginning, a new direction in life. Grasp it my readers, for nothing is more spectacular and mysterious as the human mind and what it is able to achieve.

Interesting

By Silver Wolf

Permanent Spring Showers is a fast moving tale of life, frustration, cheating spouses and consequences. As in real life, everyone seems to want something or someone they don't have. Cheating is the tool they resort to getting what they think they want. The characters do not foresee the consequences of their actions, which are often long-lasting. More like a rock thrown into a pond that makes concentric circles to the edge.

Most readers will feel sympathetic toward Rebecca as she discovers her cheating spouse and loses her precious books in one fell swoop. They'll also understand her impulsive need for revenge too. The book is a guilty pleasure for anyone who has wanted revenge on an unfaithful partner.

This serious subject that could turn maudlin is handled in a humorous and page-turning fashion. If all infidelities, heartaches, and divorces could be handled in such a succinct and upbeat fashion, then the world would be a more pleasant place. All that said, it is an entertaining novel, that at times, is also romantic too.

Permanent Spring Showers is a good vacation or weekend book when you want to get away from everything.

"Permanent Spring Showers" - where to start....

I was meant to review this work two days ago, but unfortunately I am a little (a lot) behind in my reading and reviews (such is life....).

To make things worse, I am not a speed reader and do not / refuse to skim - I like to take in and savour every word.

At 472 pages this book was a tour de force as I had just over 36 hours to read it... but it was, oh, so worth it. Lately I have been incredibly fortunate to have read a string of very good books, but I thought that this one was certainly something special.

I don't think that I am easily pleased - my standard rating for a good solid book is three stars (I liked it). I am no literary buff either, and although I did study literature and literary analysis through to High School, it was not English Lit, and finding hidden meaning into every line of someone's work was never my thing.

I like to read and I know what I like and what strikes me. ... so in that respect I might be a complete philistine - many apologies.

Enough about me and my disclaimers, and back to the book in question.

Permanent Spring Showers is a complex tale and you need to read its description VERY carefully...

Yes, it all starts with an affair: Bob cheats on his wife Rebecca and tells her as she is just about to leave for a four-day conference in Chicago, where she has a really crappy time. There, Rebecca surely meets a very interesting character, Vince, and ends up having an affair herself.

This is just the tip of the iceberg.

By 30% of the book the author introduces you to about 14 active characters, and several other peripheral ones. I am generally terrible with names, therefore, at that point in the book, I had to actually test myself to figure out if I was truly managing to keep up with what was being presented - yep! I drew a map of the characters and their relationships from memory... and I only got a couple of very minor players wrong, which means Mr Southard must have been doing something right with his narration to get through my very thick skull and make all of those characters memorable for me! (see picture with my early morning scribbles).

All of the players are somehow related to Vince, who lives and breathes art; who is charismatic, sexy, exceptional, admirable, despicable, romantic, sensitive and a complete bastard all at the same time. Vince is unique, larger than life and always inspiring.

Permanent Spring Showers is littered with poetry and different points of view, which are very effective and fascinating. Whilst most of the narration is from a third person point of view (POV), Steve's is always presented in the first person, and Jenn's narration occurs in the form of her journals written as personal letters to deceased classical authors. POVs are also often intermingled and therefore timelines are at times very fluid. And of course there is more... but you will have to discover that for yourselves.

Many questions and philosophical matters are raised about friendships, relationships, infatuation vs obsession vs love, and the recurring theme of "just how far is it fair to go for the sake of art?" and "would you be able to live with its consequences?".

You will have to decide for yourselves if Rebecca became involved with Vince out of revenge, or if it was something more (... "spots in time"...))

Finally, Mr Southard's characters, even the most minor ones, were vivid and truly came alive. The overall writing was not only original, but utterly beautiful, flowing, easy to read, witty and funny - the best use of proper English grammar I have experienced in a long time.

This is definitely a tale that will stay with me for a long time.

The minus mark relates to the ending of this piece; the resolution was somewhat different from what I was expecting and would have liked to see. That is not to say that the realm of possibilities is not open. In fact, I could easily see a sequel to this... there are just so many possibilities... and that is definitely a book I would read.
