Political Ideologies: An Introduction

By DAVID OCONNELL

I purchased this book as a textbook for my political ideologies class. Heywood does a good job of providing a solid and (mostly) neutral overview of some of the more common ideologies, including: Liberalism, Conservatism, Socialism, Fascism, Anarchism, Feminism, Nationalism, Ecologism/Environmentalism, and Religious Fundamentalism. Each chapter provides a brief history of the ideology, its main "thinkers" and contributors, its core principles, and differences of opinion amongst its supporters. At the end of each chapter, Heywood gives his opinion on what he thinks the future of the ideology will be, and what challenges it may face. All in all, I think it is an excellent starting point for anyone who is looking to get a broad overview of the more prominent political ideologies.

A Must-Read For the Politically Curious

By Terrence K. Nichols

I, a moderate Liberal, am intrigued by Conservative ideology-- what's wrong with conserving things that are "good", things that "work?"

I've come to learn through this book, Political Ideologies,(PI), that all political ideologies have patron saints that express the tenets of their respective creeds in ways that can be understood, appreciated and articulated by even their ideational opponents. The power of PI is that it seems to objectively express the core, compelling fundamentals of all Western "isms" and, most entertainingly, shows how an "ism" of one era can

morph into an "ism" of a later era, with the same name, yet contain radically different ideas! ,e.g., the Liberalism of the 19th century is not the Liberalism of the 21st century-- in fact, the former has become the conservatism of modern times: free markets and small Government.

A great book and possible game changer for anyone looking to enter a space beyond that where charismatic, good-looking TV personalities perennially transform the fully satisfying meal of political ideology into Tootsie Rolls.

the rest of the book didn't look so bad but this is not the quality I expected for ...

By Amazon Customer

The cover and the first few pages were almost torn, the rest of the book didn't look so bad but this is not the quality I expected for a "good" condition label. The content of the book itself is priceless of course.
