By Maddison

This book is fantastic. "Dirty French" is full of idioms and colloquial phrases. I can't imagine anything left out. As for the name, out of 20 chapters, only the last two deal with "dirty" topics. The rest deals with idioms and how to use phrases.

6 of 7 people found the following review helpful.

Entertaining, and not too dirty!

By Phelps Gates

This is a very handy guide to colloquial French. Most of us in the US, I suspect, learn a rather formal version of the language, which can leave us puzzled at crucial moments, either while in France or while trying to understand what the characters in a movie are really saying behind the subtitles. The book isn't really that dirty, in spite of the title. Most of it deals with quite inoffensive slang and colloquialisms. The section on "verlan" or reversed-syllables (see the Wikipedia article on it) was especially interesting and revealing. After three years of French and a summer in Geneva, I had no idea this even existed!

Depends on what you're looking for.

By Sam B.

For the most part this is a book of French slang. Most of the slang in it is pretty mild day to day stuff akin to most English slang.

If you're interested in the more colorful curse words alluded to in the title you will find that only the last few chapters are dedicated to that.
