A Must Have Resource for Any Coach or Player

By Ronnie ODell

My 12 year old son Payton works with David weekly in person and those jam sessions rock. However core to the system is daily "individual" skills work. This system enables my son to pull from an arsenal of drills that he can do in our back yard with little space (he can watch the videos for detailed instructions and modeling/track accomplishments in the binder given). He can set them up quickly and there is such a variety of fun drills that the drills never become dull. Every day I see my son improving.. each week that goes by... each month... he get's better. The key is "quality touches" on the ball daily. This resource is your 1/2 of the key to your success. The other 1/2 is YOU actually putting the drills into action!

The Better Soccer Blueprint

By Jim

Our daughter was looking for additional drills and activities to improve her soccer skills. We did some searching on the internet and found the Beast Mode Soccer website and twitter account. Our daughter has had the opportunity to work with some of the drills provided by Mr. Copeland-Smith and has found them to be very beneficial. Once Beast Mode Soccer issued "The Better Soccer Blueprint" we were sure to purchase the program for our daughter. She has found the Blueprint to be a comprehensive program and excellent drills for a player who is looking to improve their skill level. She has also discovered that it is the extra work that she does outside of practice that makes the difference. We believe that this program is not only improving her soccer skills but teaching self-discipline and the importance of setting and achieving goals. We would highly recommend this program for any middle school or high school soccer player who enjoys the game and is looking to reach their full potential.

Top Notch

By Tanner

The Better Soccer Blueprint is indeed top notch. David's understanding of what best motivates and pushes a player to self succeed is spot on. I bought this product for my daughter, as a means for her to improve in her 1v1 game. She has embraced the theory and works each night to take her game to the next level. David has taught at every level of the game, from youth to national team players, and this product fits each and every one of them. Learn and work at your own pace, but dedicate yourself to put in the time. Cheers to David and his understanding of the soccer player that wants to excel.

If you desire to be great, learn from the best. Through the self-set goals and tracking your progress to see your improvement, to the multitude of "show-me" videos, this product will satisfy even the most thirsty of players for the knowledge it provides.

Well Done
