Kennedy: A Novel By Donald James Lawn* as one of your collections. However, not the collection to display in your shelves. This is a valuable book to be reviewing collection.

Review

"...America would be a different place had Kennedy remained at the helm. 'The Memoirs of John F. Kennedy' is a fascinating and original work, and highly recommended" -The Midwest Book Review

From the Author

I'm fascinated by those points in history where a small change precipitates large shifts in events. Chaos Theory suggests that butterflies flapping quietly in South America can alter world weather patterns through an ever-magnifying chain of events. This might start with the slight shifting of air flow around their tiny wings, growing to a small breeze, then a gust of wind, a change in pressure that eventually helps power a tornado in Oklahoma. In the same way a small change in one person's actions effects our historical record. What history would we be living now if a few stray chads had shifted the 2000 Presidential election to Al Gore? If the Supreme Court had not intervened and declared victory for George Walker Bush, would the 9/11 terrorist attacks have even occurred? Would Gore have drawn America into two endless wars? Would we have succumbed to an economic meltdown?

And what sort of world would we inhabit if, thirty-seven years earlier, John F. Kennedy had recovered fully from bullet wounds and gone on to fulfill a second term as president? How many times has the question been asked about his potential impact on world history? In looking through the available literature, no one appeared to have answered the question adequately. So, rushing in where angels feared to tread, I attempted to fill that gap with this novel, posing that perpetual question regarding 11/22/63, "What if...?"

From the Back Cover

"For the great enemy of truth is very often not the lie-deliberate, contrived and dishonest-but the myth-persistent, persuasive, and unrealistic. Too often we hold fast to the cliches of our forebears. We subject all facts to a prefabricated set of interpretations. We enjoy the comfort of opinion without the discomfort of thought. Mythology distracts us everywhere-in government as in business, in politics as in economics, in foreign affairs as in domestic affairs. " -- John F. Kennedy, Yale University 1962

Did the assassination of John F. Kennedy cripple America's progressive social and political will at a crucial fulcrum in its history? Would our country have had a very different trajectory if JFK had remained president

for a second term? Would there have been a Vietnam War? A Cuban reconciliation? A continuation of the Cold War?

The *Memoirs of John F. Kennedy: A Novel* brings to life the tantalizing possibilities of "what might have been" had JFK remained president after November 22, 1963. This book imagines an America where progressive leadership takes hold during the 1960s, where President Kennedy, after a grueling fight for his life in a Dallas hospital, survives his wounds and returns to the presidency. He is elected for a second term. He does not mount a ground war in Vietnam. Foreign relations with Cuba, the Soviet Union, South America, and our allies and adversaries around the world follow a very different path.

This fictional historical "what-if" explores Robert F. Kennedy's intercession in his brother's revival at Parkland Medical Center after the near fatal assassination attempt in Dallas. JFK's fateful second-term decisions are revealed through poignant conversations with memoirist, Patrick Hennessey, a young writer the president admires for his exposé of the McCarthy trials. The story lines interweave to create an intriguing, personal view of a crucial period in America's history.

Kennedy: A Novel By Donald James Lawn here as well as be participant people. Besides this book [The Memoirs Of John F. Kennedy: A Novel By Donald James Lawn](#), you could likewise locate hundreds listings of guides from numerous resources, collections, authors, and also writers in around the globe.

THE MEMOIRS OF JOHN F. KENNEDY: A NOVEL BY DONALD JAMES LAWN PDF

The Memoirs of John F. Kennedy: A Novel brings to life the tantalizing possibilities of "what might have been" had JFK remained president after November 22, 1963. This book imagines an America where progressive leadership takes hold during the 1960s, where President Kennedy, after a grueling fight for his life in a Dallas hospital, survives his chest wounds and returns to the presidency. He is elected for a second term. He does not mount a ground war in Vietnam. Foreign relations with Cuba, the Soviet Union, South America, and our allies and adversaries around the world follow a very different path. This novel interweaves a two-track story. One takes place in 1963 at Parkland Medical Center and follows Attorney General Robert F. Kennedy, Jackie Kennedy, Lyndon Johnson and J. Edgar Hoover as they cope with the explosive events of the assassination attempt while the wounded president hovers near death. The other more lighthearted fictional story-line unfolds through the eyes of Patrick Hennessey, the memoirist appointed by JFK during the approaching end of his second term in 1968. Through in-depth talks at the White House, Camp David, Hyannisport, on Air Force One, and golfing on Kennedy's private course at Glen Ora, Patrick gets to know the president as he reviews his decisions regarding the difficult path toward a peaceful resolution of world crises. This well researched alternate history will strike a chord with readers worldwide—those fascinated with the Kennedy mystique and those interested in the potential for politics to be "done right" during challenging times. Considering the current period—and the 50th anniversary of JFK's election—re-imagining a more positive past may enable us to collectively envision a more enlightened future.

Review for The Memoirs of JFK: A Novel

By Rene Harker

I grew up in the 60's and this book was my first historical what-if. A historian friend of mine says the author did a good job of integrating fact with possibility so that the story is quite plausible. From a truth and justice standpoint I found it very satisfying. Scenes with J Edgar Hoover, Lyndon Baines Johnson and other figures of the time are fascinating, spooky and hilarious. The story has a back-and-forth time warp that works once you get used to it. One of the ways you get to know the historical players is through a young (fictional) journalist Patrick Hennessey whose slow-starting romance is pretty darn cute.

Without giving away the story I can safely say: Imagine transparency and truth around the John F Kennedy

assassination rather than obfuscation and ineptitude. Imagine a bullet that stops shy of the president's vitals and does not kill him. Imagine JFK lives to do right by keeping left, and world history takes a turn for the better... It's a good read and I highly recommend it.

Kennedy Survives!

By Norm Stamper

What if that had been the headline? What if the real story, as told by Walter Cronkite, Dan Rather, and other talking heads of the day was not that John F. Kennedy perished in the November 22, 1963 assassination attempt but instead survived? What if the recovering president returned to the business of governing the most powerful nation in the world? Imagine a modern American history written from that alternative outcome. Which is what Donald Lawn has invited us to do in this fascinating historical novel. If you can't get enough of the Kennedys (Robert plays a prominent role), if you like a good read that gets your "What if?" juices roiling this is the book for you.
