THE SCIENCE OF ATTRACTION: FLIRTING, SEX, AND HOW TO ENGINEER LOVE BY PATRICK KING PDF

Do you want psychologically proven ways to attract the opposite sex, flirt better, and create chemistry? Or to take advantage of how we're biologically wired to engineer love? How can you use the science of attraction to cut through the games to date and love better?

Everyone has an opinion on attraction, dating, and relationships - but their opinions are usually based on a sample size of one, themselves. Utilizing studies both new and classic helps us reach a deeper understanding of ourselves and others - why we like who we like and what to do about it. The Science of Attraction is part textbook, with peer-reviewed research, and part advice manual, with thorough analysis and takeaways to create better relationships. If you want to understand people better, from first dates to close friends, this book has the scientific insight to reach epiphanies. What about attraction will you learn?

Here's a peek at some of the chapters:

1. The Four-Step Sequence to Flirting, Sex, and Love
2. How to Create Electric Touch
4. The Sexiness of Unavailability
5. Five Modes of Effective Flirting. Interested in More?
10. Freud's Saving Grace
12. "Let's Just Be Friends."
14. What's Kink Got to Do With It?
15. The Ugly Truth of Beauty

Attraction isn't just about romance and dating - it's how you relate to everyone in your life. Learning the science of attraction opens your eyes to how people think, and if you know how someone thinks...you're in. Of course, this knowledge will help you understand the object of your affection, whether married or still hunting/dating, to create more positivity and occasionally make you a mind reader. It's powerful knowledge to have and internalize.

Something I really enjoyed about this book is that it isn't preachy

By OceanWave

Something I really enjoyed about this book is that it isn't preachy, rather set in a conversational tone. This book explains how to feel a little more at ease when talking to the opposite sex, and confidence really does attract interest. There are a few spots in this book that made me giggle, I like when the author speaks candidly about a situation or subject matter. I am a bit awkward at times when communicating with people in general, so this book definitely gave me points to think about and try to improve on. This review is written based on my unbiased opinion.

The Science of Attraction is a must read for anyone ...

By Jennifer LaRue-Ibrahim

The Science of Attraction is a must read for anyone who is having trouble in the relationship department. It goes into detail on different things that we each look for in creating a lasting relationship. Having access to this book some 20+ years ago might have saved me from a divorce or two. People today are more in touch with technology than each other so they can really benefit from reading this book and learning what to look for and/or avoid in a potential life partner.

I received this book for free in exchange for my honest and unbiased opinion.

5 of 5 people found the following review helpful.

This is a good tip book.

By de

This is a well written book for those that need help in flirting. This is written to give you tips on how to flirt and attract the opposite sex. these is an easy read and the tips are easy to take and make your own and use yourself. I fnd that this books flows nicely and you just keep just readu=ing and finding new tips to use to get the results that you want to accomplish. These is a book with tips that you can easily use and not feel that you are cheesy or obvious that you are using tips from a book. I received this free in exchange for an honest review.
