THE TANGLED WEB WE WEAVE: STORIES AND CONFESSIONS FROM REAL PEOPLE AND THEIR AFFAIRS OF THE HEART BY RYAN BRADLEY PDF

The quest to find love never dies. It is inherent in all of us: man and woman, rich and poor, black and white, and yes, single and married. The stories in this book are about real people and their quest to find true love and the struggle to retain that love. Like many people searching for love, these people are alone and seeking the warmth of a loving relationship, but one thing separates these people from many others. These people are married. This book is about the ultimate human drama – an extra-marital affair of the heart. These are stories of real people from across the country who for one reason or another, have sought companionship outside their marriage at some point. They talk about the joys, the sorrows, the ecstasy and the stress of juggling a double life and why they are willing to risk so much to be with that one forbidden person. They talk about how the clock is always looming when they are together which is why every minute shared is treasured, every bout of laughter enjoyed, every kiss savored, every touch relished. You may like or dislike these people; you may empathize or identify with them. One thing is for certain though; you will have an opinion about them because these are stories that concern the heart. Whether you are single or married, you will find things in this book that will remain with you, because everyone who reads this book has one thing in common. We all desire to find someone.

Did I live this book?

By moi

Thank you, Ryan, for reaffirming that I am not alone in this crazy venture. So many of the elements from these stories could have come straight from my life. This book is a must read for those considering or currently having an affair.

Captured all my attention

By Jennifer L. Broich

I didn't know what to think of this book at first because I wasn't sure it was what would come of it but after reading the first story I was captured and couldn't put it down. Each and every story in this book was therapeutic for me. I felt so comforted knowing that people could find such true love outside. It was so fascinating yet it even felt taboo to read it. This is a book that I will never forget. Story after story of real life situations of forbidden love that you just cannot resist. I just want to thank the author for his boldness of

putting this altogether because I have felt so much comfort and therapy reading this book knowing that love can indeed find a way in any circumstance!

One of the best books ever read on affairs

By Jerry Bauer

Wow what a book from the first chapter to the last I had a problem setting this down . It is great seeing a book talk about the relationship part of affairs not the sex part . After reading the last chapter I can not wait to read the follow up to this book. This book shows how many people are in unhealthy, unhappy marriages and how in an affair you can find love and relationships that change you!
