Life is always establishing as well as you need some brand-new publication Unhappily Ever After: A Fairy Tale For Grown-ups By Lucinda E Clarke to be reference always.

UNHAPPILY EVER AFTER: A FAIRY TALE FOR GROWN-UPS BY LUCINDA E CLARKE PDF

It is nearly time for the Grand Royal Annual Ball and Fairyland is in chaos. Cinderella, has had enough of Prince Charming and is desperate to get a divorce – as long as she can continue to enjoy her current standard of living. Harold and Snow White quarrel over his philandering and her refusal to go where every woman has gone before. Augustus also has a problem, his wife is a raving nymphomaniac and with 28 children, he can't meet the household bills. There is a dearth of suitable princes for the available spinster princesses and the annual festivities are held for that very reason. There is friction between Ermintrude the Fairy godmother by Royal Appointment and Featherduster who favours the proletariat. Into all this turmoil, the Green Giant arrives, sent by the 'Party' to ferment an uprising among the downtrodden peasants who appear quite happy as they are and not interested in anything he has to say – unless he can provide them with TV sets. A non-politically correct tale much closer to the truth than anything you have ever seen on the movies.

Perfect Intermingling

By KB

Unhappily Ever After, where the plot's made up and the rules don't matter...ahaha. Three Kings. Three Queens. Ill pairings and unsettled unhappiness all around...Until Queen Cinderella decides to hatch a plot.

The Good: The satire and wit were in the spotlight, Clarke writing wonderfully between a casual narrative and an upright, proper story. I cringed a few times, expecting a bit of overwhelming crass from a few characters (who shall be left unnamed; I think you'll know them when you see them), and yet, I was relieved that the raunch stayed at bare minimum. And was still sort of funny.

The Bad: I can't really say. I don't remember anything 'bad' about it.

The Overall: If you want gritty, over-the-top action, a story that rushes you through the exposition, and one that takes itself far too seriously, you will be disappointed. Clarke understands the narrative of this story very well, and thus, the pacing and narrative takes itself about as seriously as the original Batman. However, Clarke does great at keeping all the terms and concepts inside of a Fairytale Land, even down to explaining why there's a TV in every palace. This book was great, and is worth the read.

A talent

By Patrick

I'm a big fan of Lucinda E Clarke. I have read several of her books and this is the main reason I was attracted to this book. Normally I am not a fan of comedy in books so that is probably my starting point. Humour is a very personal thing and I suspect my sense of humour has been warped with age. My sense is that this book will have a great deal of appeal to most but unfortunately I only got the edge of it which to be fair I believe would be a truly personal thing. I could be thrown off by the style I'm used to from Lucinda but whatever the reason it shouldn't take away too much from the book as it stands. It is funny, there is an intelligence here in often simple humour that shines through in the style and quality of the writing and if you enjoy humour in books generally, then I feel you will enjoy this particular book. The humour and style is quite British which as a neighbouring Irishman means I am quite familiar with it and if this is your cup of tea so to speak, then certainly *Unhappily ever after* will be a joy to you. Love Lucinda's work, pick this up and go find her more serious work too, she is a joy to behold.

A Fun Read

By Dakotaboy

This is the kind of book to read if one is feeling down and blue, because it will pick up your spirits. It speculates what a hundred year marriage would be like between Cinderella and Prince Charming. Cinderella becomes an overweight glutton and wants a divorce. Intertwine other royals like Snow White, Prince Harold, Beauty and Prince Augustus, a slew of royal brats, and the story is an enjoyable and light read, full of wry humor and equally idiotic peasant characters. In the end, divorce is finally allowed in fantasyland and everyone lives happily ever after. Well written and descriptive.
