Good variety of poetry

Good for use with my students learning poetry. Did wish the poems were organized a little better, but overall great resource.

Fun books!

By Katie at Home

I bought this book, and the(Phonics Poetry Pages and Sight Word Poetry Pages book. My six year old son and I have loved using these as part of our homeschool curriculum. We make books out of the poems he has completed and he loves reading the poems to me (or anyone else!). We made a short vowel sound book, and a long vowel sound book. He thinks the pages are fun, and his reading and handwriting have improved using these books (in tandem with other curriculum). Highly recommended!

The Land of IT

By BP

Great for home school poetry with the kids. We read a lot of poetry in our schooling, Shel Silverstein, Robert Louis Stevenson, Oxford Poetry Book, Mother Goose and so on. And this is great for a little simple poetry and they have an activity to do at the end of each poem. I copy it and each child gets their own folder to put it in once they fill it out. I like to use this when working on reading and specific word families. Cute poems the kids enjoy.
